SOLUTION BROCHURE

# Storm hardening and grid resiliency

# Supporting you before, during and after the storm

There's a feeling of confidence that comes with installing ABB utility product solutions that withstand and allow fast recovery from extreme weather events.

We enable a hardened and resilient grid with distribution equipment that is underground, submersible, watertight, corrosion-resistant and safe. You'll find that our 24/7 response service is just as dependable as our broad selection of in-stock storm restoration products — to give you peace of mind before or after the storm.

Our Storm Stock program offers you:

- Emergency access to products housed at a dedicated stocking location
- A reliable and well-trained response team
- An extensive inventory of more than 700,000 emergency connectors
- An exceptional commitment to provide the most expeditious delivery
- Coordination with preferred carriers

For fast and reliable service, contact your local ABB agent or distributor.

For utility products and services technical support, call 1-800-326-5282 or email [US-Utilcustserv@abb.com](mailto:US-Utilcustserv@abb.com).

Our goal is to exceed your needs and help restore your systems as quickly as possible.
